EXPERIENCE

ARIYATH IT TECHNOLOGY | SEO, Ads Campaign | Internship
Dec 2023 - Jan 2024| Tiruvannamalai
• Gained hands-on experience in SEO optimization, keyword research, and Google Ads management. Assisted in running ad campaigns, analyzing performance metrics, and improving online visibility.

PROJECTS

MY GCT HUB APP React Native | NodeJS | MongoDB
Jan 2025 – Live in Playstore (Deployed in Our Alumni Server)
• MY GCT is a React Native mobile application Hubdeveloped specifically for GCT college students. It is backed by a Node.js server and uses MongoDB as the database. The app provides students with essential academic resources, including previous year question papers, unit test (UT) question papers, staff profiles, student notes, college syllabus, staff notes, and hostel details.

E-COMMERCE WEBSITE MERN Stack | AWS (EC2)
Jan 2024 – Mar 2024 | Live Video in YouTube or LinkedIn
• A full-featured e-commerce platform built using the MERN stack (MongoDB, Express.js, React, Node.js) and hosted on AWS EC2 for high scalability and performance. This platform allows users to browse products, add items to cart, place orders.
• It includes features like user authentication, order tracking, admin dashboard for product management. Deployed on AWS EC2, ensuring a reliable and efficient cloud-based infrastructure for seamless user experience.

PORTFOLIO ReactJS | Firebase | React Bootstrap
Sep 2024 – Oct 2024
• A personal portfolio website built using React with a modern and responsive UI designed with React Bootstrap. Showcases my projects, skills, experience, and contact details in an interactive and user-friendly layout. Hosted on Firebase, ensuring fast performance and seamless deployment. This portfolio serves as a professional platform to highlight my work and achievements.

SOFT SKILLS

• Team Leader (E-Commerce Website, My GCT App)
• Coaching and Mentoring (Website and IoT Projects)
• Collaboration
• Flexibility
• Active listening
